SWOT Analysis

◆ Strengths | ◆ Weaknesses | ■ Opportunities | ■ Threats

Strengths

- Professional algorithm-based indicator
- Saves time & improves accuracy
- Easy for beginners – acts like a pro
- Transparent + No fake promises
- Scalable + Brand identity built

Opportunities

- Market shift to data-driven tools
- Need for reliable structured analysis
- Build Telegram community
- Educational content + AI/alerts integrations
- Arabic niche leadership opportunity

Weaknesses

- No website or strong social presence
- Lack of testimonials & expert endorsements
- Not yet live on TradingView
- No clear monetization model
- Limited resources for scaling

Threats

- Intense TradingView competition
- AI signal tools rising
- Misuse or misunderstanding of the tool
- No user loyalty yet
- Dependence on one platform (TV)

Account Analysis

Competitive Analysis

Account Analysis

Techno Profit (Free Tools, Empty Value)

- Ranks high in search, driven by demand for free indicators
- Content lacks depth or strategy
- Feeds unrealistic hopes of fast profits
- No educational system or Sharia orientation

Theqa FX (Smart But Not Grounded)

- Professional presence with diverse content
- Strong SEO and social positioning
- Talks about Islamic finance but lacks actionable clarity
- Divides audience: beginners praise it, experts doubt it

EXAADO (Attractive Outside, Hollow Inside)

- Strong design and flashy video content
- Heavy focus on short-form virality
- No real education, transparency, or user empowerment
- Relies on hype, not substance

Analysis Report

Media Buying Plan (Awareness)

Objective & Core Message

Objective: Build strong and solid brand awareness.

Key Message: "Clarity over guesswork in trading" (educational value — soft CTA).

Target Audience (Personas)

Beginners seeking halal/ethical trading.

Traditional traders looking to speed up analysis.

Professional strategists who want data, not signals.

Platforms & Focus

Meta (Facebook & Instagram)

Focus on Reels + Feeds + Stories (Advantage+ placements).

Key Content Formats

Short Reels 15–45s (Before/After, 60s demo, Founder story).

Carousel & Feed images for reinforcement.

Tone: Educational, practical, no profit promises.

Pre-Launch Checklist

Confirm target markets (Egypt / KSA+UAE / Pan-Arab).

Approve budget, creatives, landing page & Meta Pixel.

Launch, monitor first 72h, then adjust budgets.

Main Campaigns

Cold Awareness

Reach / Brand Awareness

70% = 7,000 EGP

Goal: Maximize reach & impressions

Format: Reels (9:16) +
Feed posts

KPI: Reach, CPM, 3s views

Video Testing / Engagement

Video Views (A/B tests)

15% = 1,500 EGP

Goal: Test 6–9 creatives
(hook / length / CTA).

KPI: ThruPlay, VTR,
cost per video view.

Retargeting

Traffic / Conversions
(Join Telegram / Course)

15% = 1,500 EGP

Audience: Video viewers
(3s/25%/50%) +

engagers (30 days).

KPI: CTR, cost per join.

Timeline (1 Month)

Weeks 1–2: Testing (creatives & audiences).

Weeks 3–4: Scale best performers +
activate Retargeting.

Main Target KPIs

Reach: 150K–300K | Impressions: 400K–800K

CPM Target: 25–120 EGP | Engagement Rate: 2–6%

Analysis Report

Its Goal : Build authority, traffic, and trust in the Arab trading world by February 2026, inshaAllah. The plan is consisting of 3 months each month contain 8 blogs, content will be posted twice a week.

Month 1 : Awareness & Foundation

Goal : Introduce SnipeCharts as the first Arabic, Sharia-compliant analytical indicator — and establish authority in ethical trading and market logic. Focus: Education, awareness, and curiosity around “ethical analysis.”

Month 2: Trust & Connection

Goal: Build emotional trust and community engagement by linking trading education with Islamic values and data logic. Focus: Real-life problems, practical education, and emotional connection.

Month 3: Authority & Conversion

Goal: Build strong credibility, drive downloads, and position SnipeCharts as the trusted analytical tool for Arab traders. Focus: Authority topics, comparisons, success stories, and proof of value.
